Notes for Rate Schedules:

1. "Existing Pole" is defined as a pole utilized for distribution facilities and not solely to support the luminaire.
2. These luminaires are not available for the lighting of streets, roadways, and other vehicle thoroughfares.

3. This luminaire is available with a drop lens refractor at no additional cost. Standard service will provide no drop lens refractor.

OTHER LUMINAIRES

Decorative, non-standard luminaires or non-standard poles may, at the City's option, be installed on customer request, at the rate shown above plus an additional monthly charge equal to 1.7% of the estimated difference in the installed cost between the luminaire and pole requested and the equivalent standard luminaire and pole shown above.

UNDERGROUND CHARGES

Additional monthly charges for the underground conductor system are as follows:

1. For service to a light beyond 150 feet, the City will charge the customer an additional 9 cents per 10 feet of additional service line on a monthly basis.
2. When the installation requires the cutting and replacing of pavement for a drive or walkway, the customer will provide a contribution in aid of construction costs, including re-landscaping the area.

EXPLANATORY NOTES:

1. Lamps will burn from approximately one-half hour after sunset until approximately one-half hour before sunrise. The City will replace burned-out lamps and otherwise maintain the luminaires during regular daytime working hours as soon as practicable following notification by the customer of the necessity.
2. Luminaires will be installed only on City-owned poles or structures. All facilities necessary for service under this Schedule, including fixtures, lamps, controls, poles, or other structures, hardware, transformers, conductors, and other equipment shall be owned and maintained by the City.
3. Equipment (such as disconnecting switches) other than that supplied by the City as standard is not available under this Schedule, and shall not be installed by the customer.
4. This Schedule is not available for seasonal or other part-time operation of outdoor luminaires.
5. The customer shall designate location of the luminaire, but the location must be approved by the City and must be within a distance, which can be reached by a secondary extension from the City's nearest distribution facilities.

6. The City may supply wood poles 30' or 35' in length at the prices listed above for any light class capable of being placed on a wood pole.
7. LED wattages and lumens are those used at the effective date of this Schedule. Actual wattages and lumens may vary depending on the luminaires the City is purchasing at the time. 3000 Kelvin LEDs will be the City's standard except for special applications.

SALES TAX

To the above charges will be added any applicable North Carolina Sales Tax.

PAYMENT

All bills are due and payable upon receipt. Bills are considered past due and delinquent 21 days after the billing date and shall be subject to a late payment charge of \$5.00 or 5% of the unpaid amount, whichever is greater. In addition, if any bills are not paid within 31 days of the billing date, the City has the right to suspend service in accordance with its service policies.

CONTRACT PERIOD

The original term of the contract is for two years or pay the remaining balance of the two-year contract. Contracts will continue after the original term until terminated by either party on thirty days written notice.

ADOPTED

This rate was amended by Ordinance No. 36-18 on December 3, 2018 and is effective for bills rendered after January 1, 2019.
